

Identifying Neutral Grasses in their Vegetative State

A training course for enthusiasts from beginners to improvers!

Tuesday 22 April 2008
9am - 12.00pm

at

Rolfs Farm, Mayfield, East Sussex

This course is designed to improve your grassland identification skills by teaching techniques to identify grasses in a vegetative state, a group which many find difficult.

Some basic plant identification skills will be assumed, but by the end of the workshop participants should be familiar with grasses, sedges and rushes, and know the distinguishing features of Wealden grasses.

Please come prepared for the weather as this is an outdoor course!

Booking is essential, cost is £40 per person

Please contact Samantha Nicholas, High Weald AONB Unit Administrator.

Telephone: 01580 879500 or Email: info@highweald.org

or go to www.highweald.org and download the booking form

Organised by the Weald Meadows Initiative
